

30 sqm

Mobile LED Screen

A complete image and production package in a truck, offering quick, easy installation without compromising quality. It takes only one man to deliver, install and operate the screen, which combines quality with cost efficiency. The Mobile LED Screen can be supplied with a control room if required from which action replays, close-ups and much more can be managed and broadcast. An onboard generator removes the requirement for mains electricity. The screen does not require much room or special installation equipment and can be raised or lowered or even turned 360 degrees to suit physical conditions at the event.

Technical data, 30 sqm

Screen

Screen size, sqm: 30 m²
Screen dimensions, W x H: 6144 x 4608 mm
Picture format: 4:3
Pixel pitch, V/F: 12/24 mm
Brightness: 5000 nits
Viewing angle, R/L: 140/60 degrees
Screen rotation: 360 degrees
Min. rotation space required (dist. from trailer body):
2000 mm
Input signals: CVBS, SDI, DVI

Trailer

Trailer dimension, L x W x H: 11082 x 2550 x 4000 mm
Floorspace/Footprints when rigged, L x W: 6670 x 2750 mm
Trim height (from - to): 4000 - 4420 mm
Weight: 22000 kg
Built in studio: Yes
Built in generator: 115 kVA
Running time generator: 100 h
External power connector (3phase 400V CCE): 63 A
Power consumption (max): 60 A

Truck & Trailer

Length, total: 14600 mm
Weight, total: 29500 kg
